- ☞ We welcomed everyone and a few new faces

## Report on Future of SVTOA/Chapter:

- ☞ Advised that the Regional Directors and SVTOA had a conference call recently
- ☞ Advise that things were moving ahead and that is all good. Once the final details are worked out they will make an official announcement.
- ☞ To the members it will all seem relatively the same. It is more the behind the scenes stuff that will change. We will have an SVT registry data own magazine again maybe only on a quarterly basis.
- ☞ They are just waiting for the final approval from the legal department and then we are good to go. It should be coming through very shortly.
- ☞ We will be having another conference call soon with everyone and the new group in order to figure out what we need more specifically etc.
- ☞ They will be doing a major push for membership as well once this is all finalized by various emails and mailings with a new brochure.
- ☞ There is already a National SVTOA event at a track in the US. They want to hold a National event each year and it will change locations every year so that could be a lot of fun.

## Events:

- ☞ We reviewed the balance of events for 2006
- ☞ We reviewed events for 2007 and asked for input as to what events they would like to see that we don't already do and also discussed basically doing the same type of events that we have done in the past.
- ☞ We did get a few new event ideas from members which will be incorporated into the calendar
- ☞ Neil suggested a Golf Tournament – ACTION ITEM: need to see what interest there is from the members about this and get back to him.
- ☞ Detailing Day: set up a lottery of members who would like to have a detailing done on their car – ACTION ITEM: add to calendar
