0-60 Update

It's been a hot start to the summer season. We hope everyone is trying to keep their cool as the mercury rises.

To help keep your own cool, make sure your vehicle is in top mechanical order. The last thing you need is your vehicle to fail during a trip to the cottage or heading to one of our events. Our Dealer Sponsor, Dixie Ford, offers many maintenance specials designed to keep you going.

Many of you have also been asking when your first edition of the *SVT Enthusiast* will be delivered to your mailbox. We have recently learned that Ford and SVT unexpectedly decided to sponsor the first edition. Expect the first edition of the *SVT Enthusiast* to reach your mailbox by the end of July.

If you find yourself stuck for something to do during the summer, visit the SVTOA website (www.svtoa.com) for

the latest news on SVTOA National. You can also interact with fellow SVTOA members across the world.

For local events, visit our website for all the latest event in the GTA. If you don't have Internet access, you can always contact our Board Members for the latest updates on our chapter.

Drive safe, and have fun!

Richard Lee
Member Recruitment Officer

The Rebirth of The King

Above: The Explorer Sport Trac Adrenalin was originally introduced at the 2005 New York Auto Show. It was expected to be produced for the 2007 model year. Due to rising fuel costs and possibly the financial status at Ford, the Adrenalin never saw production. After MT's interview with Jamal Hameedi, it appears not all hope is lost. Bring on the rebirth of SVT vehicles!

In a recent online clip posted on Motor Trend's website, MT's Senior Feature Editor John Kiewicz visited Camp Steeda – part of the SVTOA Regional On Track Experience for the Southern Region.

The clip has raised eyebrows as Jamal Hameedi, current SVT Name Plate Engineer, was recorded to have said there's a truck coming, as well as some products that will surprise the public.

SVT fans are now speculating on this upcoming "truck". Whether this means the reintroduction of the Sport Track Adrenalin or a crossover with a reworked version of the new Twin Force V6 debuted at recent auto shows, only Ford engineers will know.

Let's hope they follow through!

On The Move

Top: SVTOA-Toronto members parked outside Montana's after our Spring Cruise from Acton to Milton.

A lot has happened since our last newsletter. Here is just a sample of the events that have taken place:

Spring Cruise (May 5)

Our Spring Cruise began in Acton, located 35 minutes northwest of Toronto. This sleepy town made famous for its leather apparel was awakened with our members passing through its downtown core. Cruise Director Lou Viveiros in his new MazdaSpeed6 led us to our destination of Milton - just a few minutes away. This short journey was filled with a lot of straight stretches of roads to gain some good speed, but there are a lot of tight turns, curves and hills to keep things interesting.

We rewarded ourselves with a hearty meal at a restaurant in Milton. Onlookers at the mall watched as our shiny vehicles pulled into our parking lineup. Thanks go to Lou who planned this year's cruise route.

Mapleview Centre Cruise In (Every Wednesday)

Cruise Ins are one of the easiest and best ways of automotive enthusiasts to show their vehicles. These events are held mainly in parking lots of local establishments and malls. Many events also raise money for local charities.

The Lions Club of Burlington hosts this weekly Cruise In from May to September. Quite a few of our members reside in that area, and you may run into them every week.

GTAMC Annual BBQ (Jun 10)

The Greater Toronto Area Mustang Club (GTAMC) invited us to their Annual Barbeque/Show & Shine. Once again, we headed up to the Heart Lake Conservation Area in Brampton, Ontario, along with over 180 registered Mustangs and Fast Fords. Event proceeds went to benefit the Canadian Crime Victims Foundation. Over \$4,000 was raised for the CCVF.

Congratulations go out to our Creative Director, Andy Scultety, for being one of the top 20 winners of the show.

Remember to visit our website for pictures from our events. Until our next event, Drive Safe, and Have Fun!

*Middle: Andy LaQuerre's recently restored 1988 Thunderbird Turbo Coupe makes its Mapleview Cruise In debut.
Bottom: Judging begins for our members at the GTAMC Annual BBQ at the Heart Lake Conservation Area.*

YOUR RENDEZVOUS AWAITS – JULY 27 TO 29, 2007

The 7th Annual SVTOA Redline Rendezvous On Track event is set for July 27th to 29th, 2007. We are returning to the **Dunnville Autodrome in Dunnville, Ontario.**

SVTOA On Track events are performance driving clinics held across the United States and Canada. Professional instructors provide in-class training and individual coaching on a road course. The aim is to help you develop your driving skills for both on the track and on the street. You also get the opportunity to get to know the limits and potentials of your vehicle with a guided hand.

The Redline Rendezvous is open to all enthusiasts. Join us for a weekend of fun and learning.

Pricing Information (until July 17/07)

Weekend:	\$350
Weekend Team Sharing:	\$425
Single Day:	\$190
Single Day Team Sharing:	\$230

*Prices will go up after July 17, 2007.
Register now to get in on the savings,
and for the ride of your life!*

Texaco/Havoline – Our Newest Sponsor

Havoline

Havoline® products have been a part of the automobile landscape since 1904. Almost a century later, the Havoline brand can be found throughout the world. The Havoline brand has changed through the years, and now they have become part of the Chevron family of products.

SVTOA-Toronto thanks Texaco/Havoline for their support

DIXIE FORD

No doubt you've started going to shows and seeing how other Ford enthusiasts are customizing their own vehicles. You may like what you see, or you may be thinking you can do one better.

Dixie Ford can help you there as they are our first choice for Ford Racing Performance Parts (FRPP). Dixie Ford also carries Roush and other quality products to improve the way your vehicle performs, handles, and looks. Contact the Dixie Ford Parts Department at (905) 629-1711 for details.

Feature Part: 2005-2006 F-150 Supercharger Kit Polished Part Number: M-6066-F105P

- ✦ Fits all 2005-2006 F-150 with 5.4L 3-valve engine
- ✦ Complete kit contains all hardware and detailed instructions
- ✦ Intercooled system
- ✦ Polished finish
- ✦ Premium fuel only
- ✦ Designed for use with factory throttle body
- ✦ 95mm mass air meter
- ✦ Due to multiple calibrations, online registration is required to receive Pro-Cal tool after purchase
- ✦ Pro-Cal tool voucher included with kit
- ✦ Simple bolt-on rear wheel increase of approximately 160 horsepower and 160 ft./lbs. of torque
- ✦ *Installation of this kit will void your new vehicle powertrain warranty*
- ✦ Designed by Ford Racing and Whipple engineers
- ✦ E.O. #D-231-24
- ✦ Engine calibrations are developed and supported for U.S. and Canadian vehicles only
